EDUCATION

Boston University
Graduated with: B.S. Health Science
September 2010 - December 2013

SUMMARY

With a background in tech recruitment, I quickly discovered a passion for software development. I really enjoy working in teams and bringing great energy and positivity to a group. Resilience, honesty, hard work, and kindness are values that I truly admire. I believe that these values have gotten me to where I am today and I am hopeful they will guide me to where I want to go in the future.

SKILLS

LANGUAGES: Ruby, HTML, CSS, SQL
FRAMEWORKS/LIBRARIES: Rails, Boostrap, Sinatra
TEST DRIVEN DEVELOPMENT: Minitest, RSpec, Capybara, VCR
TOOLS: Git, PostgreSQL

PROJECTS

RAILS ENGINE
- Paired Project/Source code: https://github.com/antciccone/rails_engine
- The goal of Rails Engine was to use Rails and ActiveRecord to build a JSON API
- Implemented complex ActiveRecord queries to pull out data for our user
- Tech stack: Rails, PostgreSQL, RSpec, Capybara, RESTful API, JSON serialization

CLONEY ISLAND
- Group Project/ Source code: https://github.com/antciccone/cloney-island
- Users can interact with a Kickstarter clone to post projects; built as a multitenancy app with tiered user permissions
- Tech stack: Rails, PostgreSQL, RSpec, Capybara, RESTful API, JSON serialization, AJAX, Paperclip

JAM
- Solo Project/Source code: https://github.com/antciccone/jam
- Users can authenticate with Spotify OAuth to display top artists and tracks
- A user can find and search for concerts depending on their location (Geocoder Gem)
- A user can send email's to remind their friend about a concert through SendGrids API
- API's used: Spotify, SendGrid, Bandsintown, Google Maps
- Tech stack: Rails, PostgreSQL, RSpec, Capybara, RESTful API, AJAX, Jquery, JavaScript

EXPERIENCE

TURING SCHOOL OF SOFTWARE AND DESIGN   Denver, CO
Student   Aug 2016 to Mar 2017
- 7 month immersive Web Developer Bootcamp (60-70 hours a week)
- Learned how to solve problems using Object-Oriented programming
- Built database-backed web applications in Sinatra and Rails

BONOBOS   New York, NY
Tech Recruiter   Sep 2015 to Aug 2016
- Influential in hiring the VP of Engineering
- Improved and streamlined tech team hiring process
- Recruited Ruby Developers, IOS Engineers, Product Managers and Data Scientists

WORKBRIDGE ASSOCIATES   New York, NY
Tech Recruiter   Jun 2014 to Sep 2015
- Recruited JavaScript, Ruby and PHP Developers
- Negotiated salaries with hiring managers and developers
